Dear Mr. Westman:

Subject: 40 CFR §63.311(d)
NESHAP Semi-annual Compliance Certification

Please accept this submittal as the Semi-annual Compliance Certification for United States Steel, Clairton Coke Works for the period of January 1 through June 30, 2006 according to the reporting requirements of 40 CFR §63.311(d).

During the periods stated above no coke oven gas was vented except through the bypass/ bleeder stack flare system of Batteries 1, 2, 3, 7, 8, 9, 13, 14, 15, 19, 20, or B.

During the periods stated above there were no startup or shutdown events for Batteries 1, 2, 3, 7, 8, 9, 13, 14, 15, 19, 20, or B that required the implementation of §63.310.

During the periods stated above there was a malfunction event for Batteries 7, 8, and 9 that occurred on February 1, 2006 and a malfunction event for Batteries 1, 2, 3, 7, 8, 9, 13, 14, 15, 19, 20, and B on April 14, 2006, for which the requirements of §63.310 were implemented. The provisions of the Start-up, Shutdown, Malfunction Plan were implemented and no adverse environmental aspects were experienced with the respect to the requirements of 40 CFR Part 63, Subpart L.

During the periods stated above work practices were not implemented under §63.306 at Batteries 1, 2, 3, 7, 8, 9, 13, 14, 15, 19, 20, or B.

If you have any questions regarding this submittal, please direct them to Coleen Davis at 412-233-1015 or cdavis@uss.com.

Sincerely,

Michael E. Hohman
